

It was a monumental project that had been years in the planning and many months in the making. We're delighted to share with you that the \$20 million refurbishment of Harbour Hospice North Shore is now complete.

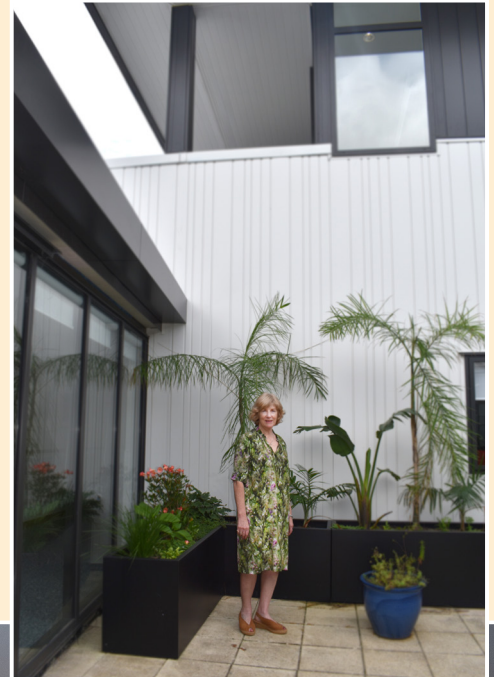

Thank you very, very much for your patience and understanding as construction took place at 7 Shea Tce. While we did our best to minimise noise levels and other disruptions we appreciate the support and goodwill that you showed us.

The project completion date had originally been scheduled for March 2023 but our construction partner, Rucon, went the extra mile and finished the project ahead of schedule. Then you might have noticed that in the last few weeks final touches were made to the building, the car park was painted and outdoor areas planted.

All systems go!

All of our hospice teams are now back in the building and patients, families and whānau are using and appreciating all the extra rooms, facilities and beautiful outdoor spaces that have been added to the inpatient area. Outpatient clinics, counselling and therapy sessions, day programmes and training in the new state-of-the-art community wing are up and running.

Again, thank you very much for your patience while work on this vital community project took place.

Only \$50,000 left to raise

With only \$50,000 left to raise we are hopeful that with a bit more help this incredible facility will be fully funded. To help complete this vital community project please contact Fundraising Manager Sandy McGregor at Sandy.McGregor@harbourhospice.org.nz
